SUMMARY

Product Manager with 4+ years of product ownership across ERP, LMS, CRM and SaaS platforms. Owns discovery through adoption - customer and stakeholder research, roadmaps, PRDs/BRDs, prioritization, delivery, UAT, launch and measurement. Authored 57 product requirements and change documents at Itvedant, with recent work spanning AI evaluation, RAG support, candidate matching and workflow automation. Combines product judgment with SQL/Tableau analytics, cost-aware AI design and hands-on prototyping.

CORE COMPETENCIES

Product Strategy & Roadmapping · Discovery & User Research · PRDs/BRDs & User Stories · Backlog Prioritization · Agile/Scrum · OKRs, KPIs & Product Analytics · UAT & Release · Stakeholder Management · GTM & Adoption · AI/LLM Product Design · RAG & Grounding · Human-in-the-Loop Evaluation · Guardrails · Model Selection & Unit Economics

EXPERIENCE

Itvedant Education Pvt. Ltd. — Product Manager / Business Analyst **Jan 2024 - Present**

Mumbai, India

Product owner for Pulse (ERP/CRM), Wingz (LMS), and itvedant.com.

- **Product ownership:** Own roadmap and delivery across three core platforms, converting business problems into prioritized requirements, Figma flows, acceptance criteria, UAT plans, releases and adoption support.
- **Product operating system:** Authored 57 BRDs and change requests across learning, admissions, placement, HR, finance and support; partnered with business, design and engineering from discovery through demos, training and rollout.
- **AI Assignment Checker:** Designed a human-in-the-loop system for ~75,000 monthly submissions, with shadow-mode validation, confidence-based routing, trainer-review SLAs and learner appeals before automatic rejection.
- **Resume Recommender:** Specified an auditable 60% skill-match / 15% resume-quality / 25% 3A-score model; limited LLM usage to on-demand job-skill extraction instead of per-candidate calls.
- **Wingz RAG support:** Defined knowledge-grounded answers with linked sources, no-answer fallbacks, ticket escalation and feedback capture; established a 1-2 branch pilot and weekly accuracy, resolution and satisfaction reviews.
- **Job-sourcing automation:** Designed demand-based sourcing for 21 branches with n8n and Apollo, allocating an 84-credit daily budget, rotating priority skills, removing duplicates and requiring Corporate Relations approval.
- **Platform expansion:** Led requirements and rollout planning for placement and interview tracking, job boards, self-placement, referrals, UPI reconciliation, ticketing, HR/RBAC workflows and QR-verifiable certificates.

Akshat IT Solution Pvt. Ltd. — Product Manager / Tableau Developer **Jul 2022 - Jan 2024**

Delhi, India

- **SaaS portfolio:** Owned roadmaps for EIZY inventory and billing, Achiever school ERP and EduCon lead management - from stakeholder discovery and process mapping through Agile delivery, deployment and adoption.
- **Operational impact:** Used SQL and Tableau reporting to reduce billing errors by 27% and improve inventory accuracy by 29%.
- **Growth outcomes:** Delivered analytics-led recommendations that increased classroom-facility utilization by 10%, parental engagement by 15% and EduCon lead conversion by 20%.

eClerx Services Ltd. — Associate Process Manager **Apr 2021 - Jun 2022**

Navi Mumbai, India

- **Operations & analytics:** Managed FX-settlement, repo-billing and middle-office exception workflows; built SQL/Tableau reporting for operational control and stakeholder visibility.
- **Process improvement:** Kept error escalations below 0.5%, reduced unmatched-trade and error-resolution time by 40%, and documented SOPs for 3 processes used to train new team members.

EDUCATION

Pune Institute of Business Management — PGDM, Finance, CGPA 9.39 2021

DIT University — B.E., Computer Science, CGPA 7.13 2019
